TRIPTON PICOCOOL-C2
READY MIXED

DESCRIPTION:
TRIPTON PICOCOOL C2 ready mixed antifreeze and coolant features a silicate free formula for superior engine protection. It is ready mixed so requires no dilution and it can be used all year as a coolant and antifreeze with a temperature range of <-15 °C.

Features and Benefits:
TRIPTON PICOCOOL C2 antifreeze ready mixed contains glycols and helps to prevent winter freezing and summer overheating over a 2 years period.
It's also provides very good protection against corrosion and rust.

APPLICATIONS
TRIPTON PICOCOOL C2 antifreeze ready mixed is recommended for using all application coolants.

Physical and Chemical Properties

Property	Value
Physical state Appearance	Clear Viscous Liquid
Color	Green
Odour	Odouriess
Boiling Point °C	105
Density g/ml	1.09-1.10
Freezing Point	<-15
Solubility	Sotuble in water
pH	>8.0

These characteristics are typical of current production.
